

Created by Dr. Carr's MAT Students at Mercer University

Shapes

They even included a "Farmer in the Dell" shapes song!

A neat feature were the holes that allowed for shapes to be dropped into cereal boxes attached on the back!

Alphabet and Sounds

Well coordinated jungle theme!

Notice the kid friendly use of animals and puppets to entice young learners!

Number Concepts

Love the versatile tree theme! Apples are held on with paper clips so other items could be used on the tree.

So many skills included in one center!
The ladder could be used for skills like counting, even and odd and skip counting!

Five Senses

Bon appétit! Senses in the kitchen!

Look at all the tactile and sensory learning items!

Way to Go, Class!

Your work was...

"unbelievable"

Thanks for your collaborative teamwork!
